

Act NOW! IMPORTANT!

Dean Wheeler and his committee did a fantastic and thorough job of crafting Amendment 3. They diligently sought input from members, then they put together the amendment and mailed it to each of us. Please—let’s not allow their efforts to be wasted. YOUR next steps are:

1. Get a copy of the amendment by visiting www.flyingdiamondairpark.info (then go to the “proposals” button), or you can contact John Denissen info@flyingdiamondairpark.com or (310) 849-2935. (I can fax or mail it to you.)
2. Read it, and if you like it,
3. Sign it in front of a notary.

You can find a notary public at your bank (usually no charge), real estate offices or at AAA.

As Dean explained at the members’ meeting, this amendment doesn’t significantly change the existing requirements regarding parking of “vehicles” (including trailers, campers, airplanes) at the airpark. What it does is clarify the existing language.

Please, let’s honor the work of our neighbors and wrap this amendment up!

Coming Road Work

In the coming months, you’ll notice some significant improvement to Lone Saguario Rd. This is envisioned as the first phase of gradual comprehensive road improvement.

Road Maintenance

Is your road in good shape? If so you probably owe it to Bob Cleberg. It is primarily Bob who keeps our old grader running and scrapes the roads when we’re blessed with rain-- and much more. Others have chipped in—Larry Bramhall, Scott Farris and Steve Kuiper. New to the road crew is Mike Runde. And, the Ruby Star Dragers—Lou Cook and Dale Wheeler. Thanks to all!

Hey, What is this thing anyway??

You’re reading the first volume of the quarterly newsletter for members of the Flying Diamond Airpark. At the July 21 members meeting, some members felt that a printed & mailed newsletter might improve access to information and communication.

Articles, references and anything else of a positive nature are welcome in the FD Flyer.
Send in your ideas!
